Commercial Victoria Blue

Austral Bricks' Commercial 65 Series are specially designed for high-traffic commercial applications. Their extra depth and patented keyed base work together to accommodate high axle loads and resist turning and braking forces. With their excellent slip resistance and high durability levels, Commercial 65 Series is also the answer for footpaths, malls and shopping precincts.

NB: Made to order, conditions apply.

- Low risk of slipping when wet
- Very low risk of slipping when wet
- Salt resistant

Old Brunswick Red V E S

Our Old Brunswick brick paver is an original sized paving brick. The hardwearing properties of fired clay combined with the beautiful blended red brick colours have graced the paths of some of Melbourne's most famous community and residential buildings. Today, renovators and new homebuilders alike, often look to real brick pavers to capture that enduring classic pavement or driveway.
